

# Davyhurst Goldmine

## Design and Construction of Borefield & Pipeline

### Project

Davyhurst Gold Project

### Location

WA Goldfields -approx. 120km NE of Kalgoorlie

### Client

Consgold

### Commencement Date

February 1997

### Practical Completion

April 1997

### Description

Como Engineers designed and constructed a borefield and 50km pipeline to deliver 100L/ sec of hypersaline water to the process plant.

Bore and transfer pumps were controlled by a telemetry system.

### Project Manager

Richard Ladyman
