

Mt Cattlin

HMS Definitive Feasibility Study for Spodumene Project

Project

Mt Cattlin Spodumene Project

Location

Ravensthorpe, South WA

Client

Galaxy Resources

Practical Completion

Feb 2009

Description

Galaxy Resources requested Como Engineers Pty Ltd to prepare a Definitive Feasibility Study to estimate the capital cost of the design, procurement and construction of a 1Mtpa lithium ore treatment facility, including related infrastructure, at their Mount Cattlin Spodumene Project in Ravensthorpe, South Australia.

In addition to this, an estimate for the ongoing operating costs of the facility was required. Como Engineers prepared the study based on information supplied by Galaxy Resources and metallurgical data supplied by Barrier Mining Services and Kydare Management Pty Ltd, consultants engaged by Galaxy Resources.
