

# Osborne Magnetite Project

## Detailed Feasibility Study for Magnetite Concentrator on Flotation Tails

### Project

Osborne Magnetite Recovery Project

### Location

North West Queensland

### Client

Ivanhoe Australia

### Commencement Date

November 2011

### Practical Completion

May 2012

### Description

Detailed Feasibility Study to determine optimal flowsheet, capital and operating costs for a 2Mtpa magnetite concentrator treating flotation tailings for the Osborne Flotation Plant.

Costs are to be determined to an accuracy of +/-15%

### Project Manager
