COMO MODULAR ELUTION PLANTS

Manage your workers exposure to COVID-19 - keep your site open!

Our Clients have asked us to assist them to manage their site exposure to COVID 19.

Our modular designs significantly reduce the number of workers required to install and commission, not only saving you money but reducing workplace interactions & increasing safety.

Como modular plant solutions are:

Our Design

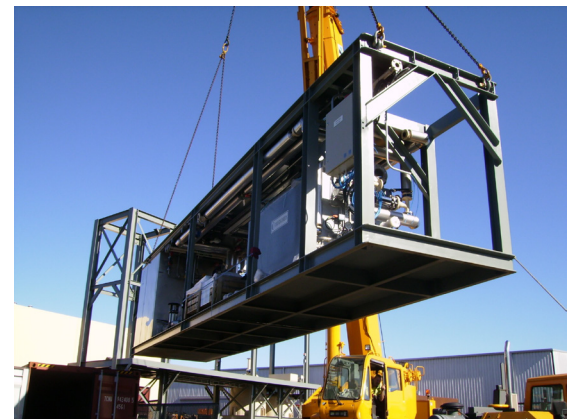

Quick to install
Easy to install
Easy to commission
Designed by Process Experts

What it means to you

Less time onsite
Less people onsite
Quick demobilisation
Less people required to operate

Como fully pre-commissions our plants in Perth, Western Australia (COVID community transmission free environment June 2020).

- Plants are containerised and sent to site.
- One Como person mobilised for installation & commissioning.
- Typical plant commissioning and hand-over time is 2 weeks.
- Pre commissioned for smooth start.

We can't stop COVID-19, but we will assist you to manage your exposure.
